.....

The well must be sampled twice for each parameter indicated.
Results of the first sample must be reported within 30 days of well completion; results of the second sample must be reported within 60 days of well completion, but at least 30 days after the first sample.

**THIS VARIANCE IS NOT VALID UNLESS SIGNED BY THE
CERTIFIED WATER WELL DRILLER AND THE WELL OWNER.**

DRILLER AFFIRMATION

I, the undersigned, agree to construct the above described well in accordance with all water well construction practices and standards established by the Kentucky Natural Resources and Environmental Protection Cabinet and in accordance with those conditions described in this variance request. I will be held financially responsible for remedial measures for this well if I fail to construct the well in compliance with the conditions established in this variance request.

Signature: Date:

WELL OWNER AFFIRMATION

I, the undersigned, understand the above described well is not in compliance with the water well construction practices and standards established by the Kentucky Natural Resources and Environmental Protection Cabinet. I acknowledge that the driller has requested a variance to allow the well to be constructed according to the conditions described in this variance request. By signing below, I give my permission for the well to be constructed as described above. If this variance well is constructed to the specifications of this variance and results in degradation of groundwater quality, I will be financially responsible for remedial measures for this well, including plugging, if necessary.
